THE ART OF MEMORIALS

www.bellelapidi.com

ABOUT BELLE LAPIDI

By the time Michelangelo was 87 years old he had produced some of the finest works of art that the world would ever see. Two magnificent sculptures, THE PIETE and THE DAVID were both completed before he was 30 years old, and later he would go on to complete the breathtaking frescos that decorate the Sistine Chapel. Yet, at the end of his life, Michelangelo wrote 'Ancora imparo', which means 'I am still learning'. It is this relentless search to improve oneself which is the great source of inspiration behind Belle Lapid.

All of the memorials that you will find in this brochure have been produced to the highest standards by craftsmen who are constantly in search of excellence.

It is natural to want to honour and remember your loved one with something tangible, beautiful and permanent. People close to you are irreplaceable and the memorial you finally choose should celebrate these extraordinary lives.

You will find that all of the memorials in this brochure are unique, and we insist that our craftsmen have the flair and finesse required to produce individual works of art which pay tribute to the loved one that you have lost.

Niente e impossibile – **N**othing is impossible.

Once your memorial is ready to be placed in the cemetery, you will receive an

AUTHENTICITY PACKAGE

(Contains: A hand sized Cleaning Kit which can be used to maintain the headstone, a glass rose and vase – designed to act as a keepsake and inspire fond memories of your loved one, and an 'Authenticity Certificate', which certifies that the memorial you have purchased is a genuine Belle Lapidı Product.)
